Do you have alot of space at home?

No

Yes

Try a Bay System

Do you have the time to give your compost system maintenance regularly?

No

Yes

Try a Compost Pile

Try a Wire Bin

Composting Tips:

1. Make sure to compost the right materials (not all scraps and pieces of trash can be composted).
2. Each composting system needs proper maintenance to prevent rodents and flies.
3. If one composting system doesn't work for you have fun and try others!
